0417 Cleaning Solvent

General Description:

It is a mixture of esters, glycol, alcohol, aromatic solvents and ketones suitable for cleaning of Loose Rust, Grease, Oils particles & various Residues on the substrate.

Advantages:

1. Non Chloride, Sulphide & Acidic, hence ecofriendly.
2. Various solvent combinations affect the surface according to their properties.
3. This solvent can be applied for Precision Cleaning, Medium and Heavy Soil Removal, Light Soil Removal, Defluxing, Particulate/Ionic Removal, Silicone Deposition and Tube Swelling, Optics Cleaning, Grease & Oil Removal.

Characteristics:

Appearance Colour	Transparent Liquid.
Specific Gravity	0.85 + / - .02 Kg. / lit.
Colour (Saybolt)	1209 +30
Initial Boiling Point	85
Copper Corrosion	none
Non – Aromatics	30 – 40%
Flash Point (Abel) IP170	100C

Cleaning Solvent applications:

- » Strongest and broadest cleaning power range of any solvent in its class
- » Low viscosity, low surface tension, and high liquid density, which enables effective wetting and ensures superior cleaning performance
- » No drying required
- » Low toxicity
- » Safe and easy to use

Storage:

Keep the container tightly closed. Shelf life is unlimited in close container. Keep away from direct sunlight and other sources of heat or ignition; do not smoke in storage areas. For further safety aspects, please refer product MSDS.

DIRECTIONS FOR USE:

Apply cleaning solvent by brush or cotton wipes.
